But the “open Metaverse” Decentraland gestures towards is still very far away. Bartle, the Essex academic, says that today most developers are building up discrete and proprietary “walled garden” virtual worlds. “You can’t move between them, or take what you’ve got from one world into another,” he says.

Equally, if you get caught using an account generated through these programs, there are big consequences. The official Roblox site strongly advises against using schemes like account generators. They say that anyone asking you to input your details anywhere is scamming you, and that you won’t receive a glitched account or free Robux. The terms of service also warn against it, too. They say that you cannot obtain “exploited game or experience content.” This includes hacked accounts with Robux. If you’re caught doing this, they reserve the right to immediately close your account.

NPCs are a fantastic way to engage players in your game rather than have them go to an ugly menu via their user interface. Creating an interactive NPC is a part of designing the game, and they can then be assigned roles and unique shops based on what you want to sell.

That might have been just legal manoeuvring, but the question will eventually arise: who gets to decide what appears on the Metaverse? Given Roblox's significant audience of under-13s, the company is understandably keen on safety, employing over 3,000 people around the world to screen for inappropriate content. That is good news if you're a parent, but bad if you're a creator in a hypothetical future where a moderated Metaverse becomes the primary conduit for entertainment consumption and your work is judged sufficiently inappropriate.
